SUPPLEMENTARY INFORMATION

I. Abstract

This collection of information is required by the provisions of the Patent Cooperation Treaty (PCT), which became operational in June 1978 and is administered by the International Bureau (IB) of the World Intellectual Property Organization (WIPO) in Geneva, Switzerland. The provisions of the PCT have been implemented by the United States in part IV of title 35 of the U.S. Code (chapters 35-37) and subpart C of title 37 of the Code of Federal Regulations (37 CFR 1.401-1.499). The purpose of the PCT is to provide a standardized filing format and procedure that allows an applicant to seek protection for an invention in several countries by filing one international application in one location, in one language, and paying one initial set of fees.

The information in this collection is used by the public to submit a patent application under the PCT and by the United States Patent and Trademark Office (USPTO) to fulfill its obligation to process, search, and examine the application as directed by the treaty. The USPTO acts as the United States Receiving Office (RO/US) for international applications filed by residents and nationals of the United States. These

applicants send most of the correspondence directly to the USPTO, but they may also file certain documents directly with the IB. The USPTO serves as an International Searching Authority (ISA) to perform searches and issue international search reports (ISR) and the written opinions on international applications. The USPTO also issues international preliminary reports on patentability (IPRP Chapter II) when acting as an International Preliminary Examining Authority (IPEA).

II. METHOD OF COLLECTION

By mail, hand delivery, or electronic submission to the USPTO.

Estimated Total Annual (Non-hour) Respondent Cost Burden: \$305,509,626.10. This collection has annual (non-hour) costs in the form of translations, drawings, filing fees, and postage costs.

Translations and Drawings

Under the terms of the PCT, the USPTO may require documents submitted for a PCT application to be translated into English when necessary. This requirement may carry additional costs for the applicant to contract for a translation of the documents in questions. The USPTO believes that the average length of the document to be translated will be 10 pages and that it will cost approximately \$150 per page for the translation, for an average translation cost of \$1,500 per document. The USPTO

estimates that it receives approximately 21,180 English translations annually, for a total of \$31,770,000 per year for English translations of non-English language documents for PCT applications.

Applicants may also incur costs for drawings that are submitted as part of PCT applications. Some applicants may produce their own drawings, while others may contract out the work to various patent illustration firms. For the purpose of estimating burden for this collection, the USPTO will consider all applicants to have their drawings prepared by these firms. The USPTO estimates that drawings may cost an average of \$58 per sheet to produce and that on average 11 sheets of drawings are submitted per application, for an average total cost of \$638 to produce a set of drawings for an application. The USPTO expects that approximately 91% of the estimated 48,285 applications per year will have drawings filed with them, for a total of 43,939 sets of drawings with a total cost of \$28,033,082 per year.
